EDUCATION

Masters in Computer Applications (M.C.A.)

- Nagaji Institute Of Technology and Management.
- Gwalior, Madhya Pradesh

Bachelor's in Computer Applications (B.C.A.)

- Jiwaji University
- Gwalior, Madhya Pradesh

SKILLS

- React Native
- Java Script
- Redux
- React JS
- HTML
- CSS
- Typescript
- Google Firebase
- Google Maps
- Apple Authentication

TOOLS

- X Code
- Android Studio
- VS Code
- Postman
- Git

LANGUAGE

English
Hindi

WORK EXPERIENCE

Softworld India Pvt. Ltd.

Jaipur Rajasthan
09/2022 to Present

Software Engineer

SWILSORT MOBILE APPLICATION

- I have successfully implemented Single Sign-On (SSO) across all applications. This allows users to log in with a single email ID for seamless access to all applications.
- Developed SwilSORT an inventory tracking application facilitating order management, shelf/rack organization, product barcode scanning and stock reporting
- Led the development of the application, primarily using JavaScript for coding, utilizing built-in API's in .NET, and employing React Js and React Native for feature implementation
- Designed and implemented role-based access control, allowing administrators to assign specific rights to employees for order picking, review, and packing
- Implemented dual order picking methods, allowing employees to pick orders simultaneously or sequentially, as well as via shelf filters, enhancing efficiency

SWILPOS & SWILDISPATCH MOBILE APPLICATION

- Developed SwilPOS a billing and invoicing application, enabling users to create orders, invoices, purchase orders, and receipts, along with multiple billing views and a tablet friendly Kanban view
- Managed batch and lot number functionalities for product tracking and handled customer records management effectively
- Developed SwilDISPATCH a delivery tracking application with features for order tracking, payment collection recording, and detailed order reports with delivery date, time, and cancellation reasons
- Utilized Redux Toolkit, async storage, and multiple navigators for enhanced functionality and user experience
- Ensured application responsiveness across various device sizes, including handsets and tablets, through thorough testing and optimization
- Integrated Google Maps API for live order tracking functionality
- Published SwilPOS, SwilSORT, SwilDISPATCH, SwilBA and SwilDESK applications on both Google Play Store and Apple App Store for widespread availability

SWILMART & SWILBA MOBILE APPLICATION

- Developed SwilMART a E-Commerce application. It is seamlessly connected with an ERP system, ensuring real-time updates for inventory, orders, and customer data, streamlining business operations
- SwilBA is a comprehensive business analytics app that consolidates all user reports into a single platform. It offers advanced filtering options, enabling users to easily customize and access the insights they need

SoftYOI LLP

Ahmedabad Gujrat
06/2022 to 08/2022

React Native Intern

During my three-month internship, I gained invaluable experience working on live projects and honed my skills in application management. Specifically, I had the opportunity to contribute to Whimstay, a comprehensive hotel booking application. Throughout this period, I learned the importance of writing organized and efficient code, as well as effectively managing large-scale applications. This experience has equipped me with practical insights and expertise that I am eager to apply in future endeavors
